# Revision of Dividend Forecast for the fiscal year 2026

RYOBI LIMITED (the "Company") hereby announces that its Board of Directors resolved at a meeting held on August 5, 2026, to distribute dividends from surplus as detailed below, and to revise its dividend forecast for the fiscal year ending December 31, 2026.

1. Reason for the revision

Under the "Medium-Term Management Plan (2025–2027)" announced on February 13, 2025, the Company has adopted a policy of progressive dividends and set a target total return ratio of 40% for shareholder returns during the plan period.

Regarding the full-year consolidated financial results for the current fiscal year, the Company has revised its full-year earnings forecast upward, as announced today in the "Consolidated Financial Results for the Second Quarter (Interim Period) of the Fiscal Year Ending December 31, 2026."

In light of the expected increase in profits exceeding initial forecasts and to further enhance shareholder returns, the Company has revised its year-end dividend forecast upward by ¥2.00 from the previous forecast to ¥54.00 per share (bringing the annual dividend forecast to ¥106.00 per share).
