## **Cancellation of RMGT's Appearance at drupa 2021**

Ryobi MHI Graphic Technology Co., Ltd. (RMGT, president: Katsushi Hirokawa) will cancel its scheduled appearance at the drupa 2021 international printing and media industry exhibition to be held from April 20 to 28, 2021.

RMGT had been preparing for the exhibition, believing that exhibiting at drupa would be an excellent opportunity to shine a light on recent developments in the printing industry, which unfortunately has been hit hard by the spread of the new coronavirus (COVID-19).

Now, six months before the exhibition, COVID-19 is not subsiding but is rather showing signs of spreading again all over the world. RMGT has thus decided to cancel its appearance at the exhibition due to the difficulty of providing a safe and secure atmosphere where people will be able to talk positively about the future.

In response to customer expectations, RMGT will continue to issue information about its activities using online and other means of communication. Under the theme of "Assist Your Potential (with technological expertise and constant innovation)", we will also continue working with our customers to create a world where people take the lead through mastery of machines and technologies.
